PROFILE

Junior Full Stack Developer experienced in building responsive React applications and secure REST APIs using TypeScript, Node.js, Express, MongoDB, Supabase, and PostgreSQL. Focused on clean code, authentication, and user-centric products.

PROJECTS

Traveture [React](#) - [TypeScript](#) - [Vite](#) - [Tailwind CSS](#) - [Express](#) - [MongoDB](#)

A full-stack tour discovery and booking platform for browsing tours, saving favourites, submitting reviews, and managing accounts.

Responsive tour experience: Built tour listing and detail views with filtering, pagination, interactive maps, ratings, and review display.

Secure account features: Implemented protected client routes, cookie-based JWT authentication, profile updates, password reset, and favourites.

Booking foundations: Integrated booking workflows with per-date seat validation, role-based access, and Stripe webhook support.

Clinic Management System [React](#) - [TypeScript](#) - [Tailwind CSS](#)

A web application for managing patients, appointments, doctor schedules, and medical records for a private clinic.

Appointment conflicts: Prevented overlapping appointments with PostgreSQL exclusion constraints in Supabase.

Patient data quality: Built real-time phone-number validation to prevent duplicate patient profiles.

Role-based access: Secured admin, doctor, and receptionist workflows through React route guards and Supabase Row Level Security.

AI Budget Planner [Next.js](#) - [TypeScript](#) - [Tailwind CSS](#) - [OpenAI API](#)

An e-commerce experience with an AI-powered outfit planner that suggests complete looks based on a shopper's budget and occasion.

Personalized recommendations: Connected the user experience to AI-assisted outfit suggestions to make fashion discovery more relevant.

SKILLS

Frontend	HTML5, CSS3, JavaScript (ES6+), TypeScript, React.js, Next.js
Backend	Node.js, Express.js, REST APIs, MongoDB, Mongoose, JWT Authentication
Supabase	PostgreSQL, Authentication, Row Level Security (RLS), Database Design
Styling	Tailwind CSS, Responsive Design, CSS Modules
Tools	Git, GitHub, VS Code, Vercel, Figma, Stripe Webhooks
